Supplemental Forensic Case Report
September 15, 2011
(See original report dated July 11, 2006)

To:
John R. Mulkeen
Hudson County Prosecutor's Office
Juvenile Division
595 Newark Avenue
Jersey City, NJ 07306

Bode Case #: 2S06-038
Agency Case #: 2005-05-0659

List of evidence received on May 24, 2006:

Bode Sample Name	Agency Sample ID	Agency Description
2S06-038-01	H.C.P.O. Item #3	Labeled as "One pair of Winnie the Pooh denim Overalls, size 18"

DNA profile generated by New Jersey State Police Office of Forensic Sciences (Date of report 1/5/08) provided to Bode by Hudson County Prosecutor's Office via fax on September 9, 2011 for comparison purposes (see Table 1):

Specimen No.	Agency Description
5	Buccal Control (O)
7	Buccal Control (S) [Elmo Rivadeneira]

Y-STR Processing, Results and Conclusions:

The evidence was processed for DNA typing by analysis of the following Short Tandem Repeat (STR) loci specific to the male Y chromosome (also called Y-STRs): DYS391, DYS389I, DYS439, DYS389II, DYS438, DYS437, DYS19, DYS392, DYS393, DYS390, and DYS385a/b using the Promega PowerPlexY kit. Appropriate positive and negative controls were used concurrently throughout the analysis. The DNA profiles reported in this case were determined by procedures that have been validated according to standards established by the Scientific Working Group on DNA Analysis Methods (SWGDAM) and adopted as Federal Standards.

1. The Y-STR profile previously obtained from the sperm fraction (SF) of sample 2S06-038-01 is consistent with a mixture of at least two individuals.

2. The partial Y-STR profile previously obtained from the epithelial fraction (EF) of sample 2S06-038-01 is consistent with a mixture of at least two individuals.

The individuals associated with Specimen No. 5 (Buccal Control (O)) and Specimen No. 7 (Buccal Control (S), Elmo Rivadeneira) are excluded as possible contributors to the Y-STR profiles obtained from the sperm fraction (SF) and epithelial fraction (EF) of sample 2S06-038-01.

See **Table 1** for summary of alleles reported for each sample.

Bode Case #: 2S06-038
Agency Case #: 2005-05-0659

Date: September 16, 2011

Notes:

1. Any reference to body fluids in evidence descriptions are based on the written descriptions of the samples by the submitting agency.
2. This supplemental report was issued due to a comparison request by the Hudson County Prosecutor's Office on September 9, 2011.

Report submitted by,

Susan Bach, MFS
Senior DNA Analyst
